A Workshop Report on “Case Study Research: Investigating Real-world Phenomena”

Name of Activity: Workshop on “Case Study Research: Investigating Real-world Phenomena”

Date and Duration: 05 Aug 2020

Organizer(s): Department of Science, St. Wilfred’s College of Arts, Commerce & Science, Panvel

EXPECTED OUTCOMES	
CO 1	Participants will learn how case studies can be used to investigate real-world phenomena.
CO 2	Participants will learn how to design and conduct case studies effectively,
CO 3	Participants will learn how to effectively communicate their case study findings through written reports, presentations, and visualizations.

Mapping with PO & PSO: Mapping Levels: 1- Low, 2- Moderate, 3-strong

Activity Summary:

The workshop on "Case Study Research: Investigating Real-world Phenomena" was designed to provide participants with a comprehensive understanding of case study methodology and its application in examining real-world situations.

Workshop Objectives:

1. Introduce participants to case study research methodology.
2. Familiarize participants with the process of designing and conducting case studies.
3. Provide practical guidance on data collection, analysis, and interpretation in case study research.
4. Discuss ethical considerations in case study research.

Workshop Agenda:

1. **Introduction to Case Study Methodology:**
 - Overview of different types of case studies.
 - Understanding the purpose and benefits of case study research.
2. **Designing Case Studies:**
 - Steps involved in designing a case study, including defining research questions, selecting cases, and choosing data collection methods.
 - Ensuring validity, reliability, and generalizability in case study design.
3. **Data Collection Techniques:**
 - Exploring qualitative data collection methods such as interviews, observations, and document analysis.
 - Hands-on exercises in conducting interviews and gathering relevant data.
4. **Data Analysis and Interpretation:**
 - Techniques for analyzing qualitative data, including thematic analysis and pattern recognition.
 - Interpreting case study findings and drawing meaningful conclusions.
5. **Ethical Considerations:**
 - Addressing ethical issues in case study research, such as informed consent, confidentiality, and researcher bias.
 - Ensuring integrity and credibility in conducting and reporting case studies.

Conclusion: The "Case Study Research: Investigating Real-world Phenomena" workshop successfully achieved its objectives of educating participants about case study methodology and providing practical guidance on conducting and analyzing case studies. Participants left

Activity Summary:

The "Physical Chemistry: Understanding Molecular Interactions" seminar, held at Department of Science, St. Wilfred's College of Arts, Commerce & Science, Panvel provided an in-depth exploration of molecular interactions within the realm of physical chemistry. This report encapsulates the key discussions, presentations, and insights gained during the workshop.

The seminar brought together experts, researchers, and enthusiasts in the field of physical chemistry. Attendees included professionals, students, and academics keen on delving into the intricacies of molecular interactions.

Key Topics Covered

- Introduction to Molecular Interactions in Physical Chemistry
- Types of Molecular Forces (e.g., hydrogen bonding, van der Waals forces)
- Computational Approaches in Studying Molecular Interactions
- Experimental Techniques and Tools
- Applications in Material Science, Biochemistry, and Nanotechnology

Understanding Molecular Interactions

The seminar elucidated fundamental concepts such as intermolecular forces, molecular dynamics, and their impact on chemical and physical properties. Discussions delved into the role of molecular interactions in diverse phenomena, from protein folding to material synthesis.

Research Advances and Applications

Presentations showcased cutting-edge research on molecular interactions, highlighting advancements in theoretical models, computational simulations, and experimental methodologies. The applications spanned various disciplines, underscoring the broad relevance of understanding molecular interactions.

Key Takeaways

- Enhanced understanding of molecular forces and their implications in chemical systems.
- Integration of theoretical knowledge with experimental techniques for comprehensive analysis.
- Application of molecular interaction concepts in designing novel materials and biomedical research.

Conclusion

A Workshop Report on “Interview Techniques in Research: Conducting Meaningful Conversations”

Name of Activity: Workshop on “Interview Techniques in Research: Conducting Meaningful Conversations”

Date and Duration: 14 Oct 2020

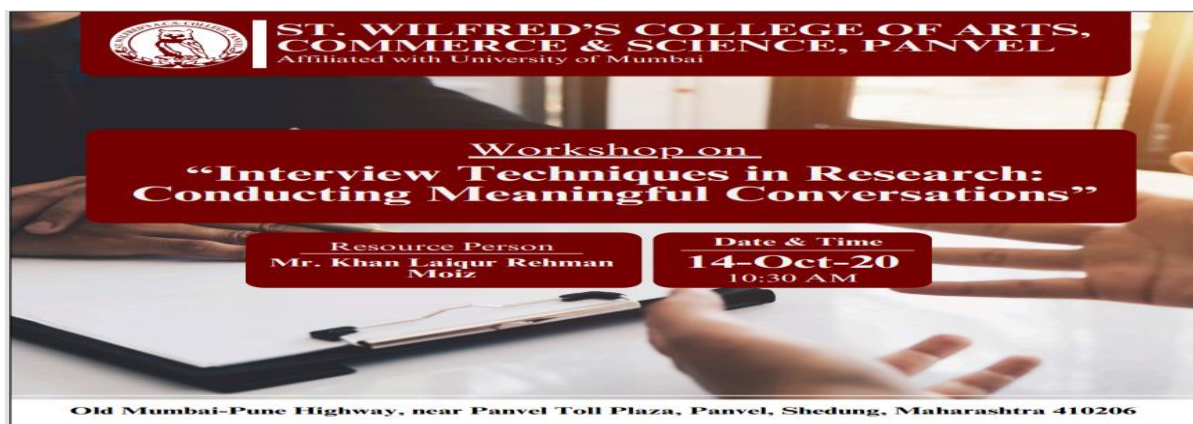

Organizer(s): Department of Science, St. Wilfred’s College of Arts, Commerce & Science, Panvel

EXPECTED OUTCOMES	
CO 1	Participants will gain a solid understanding of the purpose, types, and benefits of interviews in research.
CO 2	Participants will learn strategies for building rapport with interviewees, establishing trust.
CO 3	Participants will gain an understanding of how interview data is analyzed and interpreted in qualitative research.

Activity Summary

Introduction

Anishta
PRINCIPAL
 St. Wilfred's College of
 Arts, Commerce & Science

Where the mind is without fear! where the head is held high!

The purpose of this report is to outline the key aspects and strategies discussed in the workshop titled "Interview Techniques in Research: Conducting Meaningful Conversations."

The workshop focused on enhancing interview skills for research purposes, emphasizing the importance of conducting meaningful and insightful conversations with participants.

It aimed to provide researchers, scholars, and professionals with practical guidance on conducting effective interviews to gather qualitative data. The workshop featured expert speakers who shared their experiences and best practices in interview techniques.

Key Topics Covered

1. Understanding the Interview Process

- Overview of the interview process, including preparation, conducting interviews, and post-interview analysis.

2. Types of Interviews

- Discussion on various types of interviews such as structured, semi-structured, and unstructured interviews.

3. Developing Interview Questions

- Strategies for crafting open-ended and probing questions to elicit rich and detailed responses.

4. Building Rapport

- Techniques for establishing rapport and building trust with interviewees to encourage open communication.

5. Active Listening

- Importance of active listening skills during interviews to fully understand participant perspectives.

6. Handling Difficult Situations

- Guidance on managing challenging situations or sensitive topics during interviews with tact and professionalism.

7. Ethical Considerations

- Overview of ethical guidelines and considerations when conducting interviews, ensuring participant confidentiality and respect.

Practical Exercises and Role-Playing

The workshop included interactive sessions such as role-playing exercises where participants practiced interview techniques in simulated scenarios. Feedback and guidance were provided to enhance interview skills and adaptability in different interview settings.

Anisalla

PRINCIPAL

St. Wilfred's College of
Arts, Commerce & Science

Key Takeaways

- Improved understanding of interview methodologies and techniques for qualitative data collection.
- Enhanced ability to develop effective interview protocols and questions tailored to research objectives.
- Strengthened interpersonal and communication skills for conducting meaningful conversations with interviewees.
- Heightened awareness of ethical responsibilities and considerations in research interviews.

Conclusion

The "Interview Techniques in Research: Conducting Meaningful Conversations" workshop provided valuable insights and practical tools for researchers to conduct interviews effectively and ethically. The knowledge and skills gained are essential for conducting insightful and impactful qualitative research studies.

Activity Summary:

This report provides an overview and key insights from the workshop titled "Introduction to Computational Physics: Simulations and Modeling." The workshop focused on introducing participants to computational techniques, simulations, and modeling in the field of physics.

Workshop Overview

The workshop aimed to familiarize participants with computational tools and methodologies used in physics research and analysis. Expert speakers and facilitators guided attendees through various aspects of simulations, modeling techniques, and their applications in physics.

Key Topics Covered

1. Fundamentals of Computational Physics

- Introduction to computational methods and their role in modern physics research.

2. Numerical Techniques

- Overview of numerical methods such as finite difference, finite element, and Monte Carlo simulations.

3. Simulation Software

- Introduction to popular simulation software packages used in physics research (e.g., MATLAB, COMSOL, LAMMPS).

4. Modeling Physical Systems

- Techniques for developing mathematical models to simulate physical systems and phenomena.

5. Validation and Verification

- Importance of validating and verifying computational models through comparison with experimental data.

6. Visualization of Results

- Methods for visualizing and interpreting simulation results using graphs, plots, and animations.

7. Applications in Physics

- Examples of how computational physics is applied in areas such as quantum mechanics, materials science, and astrophysics.

Hands-On Exercises and Case Studies

Anishta

PRINCIPAL

St. Wilfred's College of
Arts, Commerce & Science

The workshop included hands-on exercises and case studies where participants applied computational techniques to solve physics problems. Practical sessions allowed participants to gain proficiency in using simulation software and interpreting results.

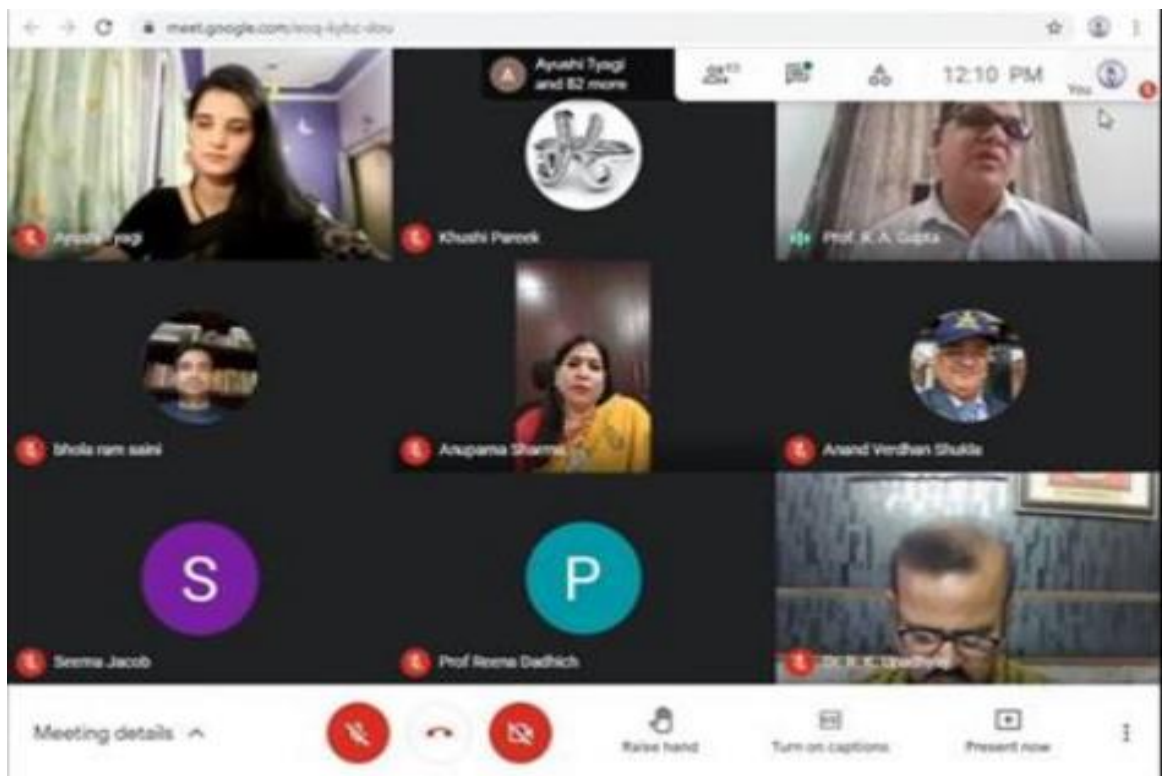

Key Takeaways

- Enhanced understanding of computational methods and their applications in physics research.
- Practical skills in using simulation software and developing mathematical models.
- Ability to validate and analyze simulation results for real-world applications.
- Insight into the interdisciplinary nature of computational physics and its impact on scientific discovery.

Conclusion

The "Introduction to Computational Physics: Simulations and Modeling" workshop provided a comprehensive introduction to computational techniques in physics, equipping participants with valuable skills and knowledge for their research and academic pursuits in the field.

A Workshop Report on Accounting Research Techniques: Principles and Applications

Name of Activity: Workshop on “Accounting Research Techniques: Principles and Applications”

Date and Duration: 03 Dec 2020

Organizer(s): Department of Science, St. Wilfred's College of Arts, Commerce & Science, Panvel

EXPECTED OUTCOMES	
CO 1	Understand fundamental accounting research techniques and their application in real-world scenarios.
CO 2	Learn how to conduct data analysis and interpretation for accounting research purposes
CO 3	Develop skills in identifying research gaps, formulating hypotheses, and conducting literature reviews in accounting research.

Mapping with PO & PSO: Mapping Levels: 1- Low, 2- Moderate, 3-strong

CO	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PSO1	PSO2
CO 1	1	1	1	1	1	1	1	1	2	1	1
CO 2	1	1	1	1	2	1	1	1	1	1	1
CO 3	2	1	1	1	1	1	1	1	1	1	1

Event Poster / Flyer:

The poster features the college logo and name at the top left. The main title is "Workshop on 'Accounting Research Techniques: Principles and Applications'". Below the title, the date and time are listed as "03 December 2020" at "10:00 AM". The resource person is identified as "Prof. Rashmi Prabha". The location is given as "Old Mumbai-Pune Highway, near Panvel Toll Plaza, Panvel, Shedung, Maharashtra 410206".

Anissha

PRINCIPAL
St. Wilfred's College of
Arts, Commerce & Science

Where the mind is without fear! where the head is held high!

Activity Summary:

This report summarizes the key insights and discussions from the workshop on "Accounting Research Techniques: Principles and Applications." The workshop aimed to provide participants with an understanding of effective research methodologies and their applications in accounting.

Workshop Overview

Organized by department of commerce on [date], the workshop attracted professionals, academics, and students interested in advancing their skills in accounting research. Expert speakers and practitioners led sessions on various research techniques and their relevance to accounting practice.

Key Topics Covered

1. Research Methodologies

- Overview of quantitative, qualitative, and mixed-methods approaches in accounting research.

2. Literature Review

- Strategies for conducting comprehensive literature reviews to identify gaps and trends in accounting literature.

3. Data Collection

- Techniques for collecting primary data (e.g., surveys, interviews) and accessing secondary data sources.

4. Data Analysis

- Introduction to statistical analysis, qualitative data analysis techniques, and software tools for data analysis.

5. Research Design

- Principles of research design, including hypothesis formulation, sampling methods, and ethical considerations.

6. Reporting and Presentation

- Guidelines for structuring research reports, presenting findings effectively, and publishing research in journals.

Practical Exercises and Case Studies

The workshop included hands-on exercises and case studies where participants applied research techniques to accounting scenarios. Practical sessions allowed participants to gain proficiency in data analysis, research design, and reporting.

Key Takeaways

- Enhanced understanding of research methodologies applicable to accounting research.
- Practical skills in conducting literature reviews, data collection, analysis, and reporting.
- Insight into the ethical considerations and best practices in accounting research.
- Ability to apply research techniques to address real-world accounting issues and challenges.

Conclusion

The "Accounting Research Techniques: Principles and Applications" workshop provided valuable knowledge and skills for participants to conduct high-quality research in the field of accounting. The techniques learned are essential for advancing accounting knowledge and contributing to evidence-based decision-making in practice.

A Workshop Report on “Business Ethics and Corporate Responsibility - Principles and Practices”

Name of Activity: Workshop on “Business Ethics and Corporate Responsibility - Principles and Practices”

Date and Duration: 06 Jan 2021

Organizer(s): Department of Science, St. Wilfred’s College of Arts, Commerce & Science, Panvel

EXPECTED OUTCOMES	
CO 1	Gain a deep understanding of business ethics principles and their application in corporate decision-making.
CO 2	Learn how to assess and address ethical dilemmas and corporate responsibility issues in business contexts.
CO 3	Develop strategies for promoting ethical behavior and corporate social responsibility within organizations.

Mapping with PO & PSO: Mapping Levels: 1- Low, 2- Moderate, 3-strong

Activity Summary:

Workshop Overview

The workshop brought together professionals, scholars, and business leaders interested in enhancing their understanding of business ethics and corporate responsibility. Expert speakers and panelists led discussions on principles, best practices, and case studies in the field.

Key Topics Covered

1. Ethical Decision-Making

- Frameworks and methodologies for making ethical decisions in business settings.

2. Corporate Governance

- Principles of effective corporate governance, transparency, and accountability.

3. Stakeholder Engagement

- Strategies for engaging with stakeholders and balancing their interests in business operations.

4. Sustainability and Environmental Responsibility

- Importance of integrating sustainability practices and addressing environmental impacts.

5. Social Responsibility

- Initiatives and practices for promoting social responsibility, including philanthropy and community engagement.

6. Legal and Regulatory Compliance

- Overview of legal requirements, compliance frameworks, and ethical standards relevant to business operations.

7. Ethics Training and Culture

- Building an ethical culture within organizations through training, policies, and leadership commitment.

Case Studies and Best Practices

The workshop included case studies and interactive sessions where participants analyzed real-world scenarios and discussed best practices in business ethics and corporate responsibility. Practical examples enriched the learning experience and facilitated knowledge sharing among attendees.

Key Takeaways

- Enhanced understanding of ethical frameworks and principles applicable to business decision-making.
- Insights into effective corporate governance, stakeholder management, and sustainability practices.
- Awareness of legal and regulatory requirements for ethical business conduct.
- Strategies for fostering an ethical culture and promoting corporate responsibility within organizations.

Conclusion

The "Business Ethics and Corporate Responsibility: Principles and Practices" workshop provided valuable insights and tools for participants to navigate ethical challenges and promote responsible business practices. The principles and practices learned are crucial for fostering trust, sustainability, and long-term success in the business world.

A Workshop Report on Exploring Genetics: Understanding Inheritance and Variation

Name of Activity: Workshop on 'Exploring Genetics: Understanding Inheritance and Variation'

Date and Duration: 03 Feb 2021

Organizer(s): Department of Science, St. Wilfred's College of Arts, Commerce & Science, Panvel

EXPECTED OUTCOMES	
CO 1	Understand basic genetic principles and inheritance patterns.
CO 2	Learn practical applications of genetics in agriculture, medicine, and forensics.
CO 3	Explore genetic variation and its role in evolution.

Mapping with PO & PSO: Mapping Levels: 1- Low, 2- Moderate, 3-strong

CO	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PSO1	PSO2
CO 1	1	1	1	1	1	1	1	1	2	1	1

CO 3	2	1	1	1	1	1	1	1	1	1	1

Event Poster / Flyer:

Activity Summary:

The workshop on "Exploring Genetics: Understanding Inheritance and Variation" provided participants with a comprehensive overview of genetic principles related to inheritance patterns and variations within organisms.

Key Topics Covered

Bertilla
PRINCIPAL
St. Wilfred's College of
Arts, Commerce & Science

Where the mind is without fear! where the head is held high!

1. Genetic Fundamentals

- DNA structure and genetic inheritance.
- Introduction to genetic terminology.

2. Mendelian Genetics

- Mendel's laws of inheritance and their applications.
- Predicting genetic outcomes.

3. Genetic Variation

- Mutations, polymorphisms, and genetic diversity.
- Understanding variation within populations.

4. Inheritance Patterns

- Autosomal dominant, autosomal recessive, X-linked, and mitochondrial inheritance.
- Analysis of inheritance patterns.

5. Genetic Disorders

- Causes, manifestations, and implications of genetic disorders.
- Healthcare considerations.

6. Modern Genetics

- Genome sequencing, genetic engineering, and gene editing technologies.
- Ethical considerations in modern genetics.

Workshop Activities

The workshop included interactive sessions, hands-on activities, and case studies to deepen understanding and practical application of genetic principles.

Key Takeaways

- Enhanced understanding of genetic fundamentals and inheritance patterns.
- Ability to analyze genetic data and predict inheritance outcomes.
- Awareness of ethical considerations in genetic research and applications.
- Insights into the role of genetics in healthcare and biotechnology.

Conclusion

A Workshop Report on “Exploring the Importance of Caste Data in Census Records for Understanding Labour Dynamics and Social History”

Name of Activity: Workshop on “ Exploring the Importance of Caste Data in Census Records for Understanding Labour Dynamics and Social History”

Date and Duration: 09 March 2021

Organizer(s): Department of Science, St. Wilfred’s College of Arts, Commerce & Science, Panvel

EXPECTED OUTCOMES	
CO 1	Analyze caste data's impact on labor dynamics and occupational trends.
CO 2	Explore caste-based socioeconomic disparities through census records
CO 3	Understand historical shifts in societal norms using caste data.

Mapping with PO & PSO: Mapping Levels: 1- Low, 2- Moderate, 3-strong

CO	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PSO1	PSO2
CO 1	1	1	1	1	1	1	1	1	2	1	1
CO 2	1	1	1	1	2	1	1	1	1	1	1
CO 3	2	1	1	1	1	1	1	1	1	1	1

Activity Summary:

The workshop on "Exploring the Importance of Caste Data in Census Records for Understanding Labour Dynamics and Social History" brought together scholars, researchers, and practitioners to delve into the significance of caste data in census records. Key discussions revolved around its implications for understanding labour dynamics and social history.

Key Themes Explored

1. Historical Context

- Evolution of caste data inclusion in census records.
- Impact on historical narratives and societal structures.

2. Labour Dynamics and Caste

- Role of caste identities in shaping labour roles and opportunities.
- Influence on occupational patterns and socio-economic status.

3. Social Stratification

- Understanding social hierarchies and community identities through caste data.
- Implications for social cohesion and community dynamics.

4. Policy and Governance

- Utilization of caste data in policy-making and governance frameworks.
- Impact on public service delivery and social welfare initiatives.

5. Ethical Considerations

- Ethical dilemmas in using caste data for research and policy.
- Challenges in data interpretation and representation.

Insights and Recommendations

- Recognition of caste data's significance in shaping labour narratives and societal structures.
- Acknowledgment of ethical considerations and challenges in using caste data for research and policy.
- Recommendations for future research directions and evidence-based interventions.
